

AMA MENSAH

Accra, Ghana | ama@example.com | github.com/amamensah

SUMMARY

Graduate software engineer who builds responsive web applications and REST APIs.

SKILLS

React, JavaScript, Python, FastAPI, REST APIs, Git, HTML, CSS, SQL

PROJECTS

Student Records Portal

- Built a React web application for administrators to manage student records.
- Integrated REST endpoints and reduced duplicate data entry.
- Collaborated with two developers using Git and code reviews.

IoT Energy Monitor

- Created a dashboard that visualized readings from connected energy sensors.
- Debugged data inconsistencies and documented the installation process.

EXPERIENCE

Software Engineering Intern | Example Labs

- Fixed application bugs and supported feature development.
- Worked with the engineering team to test releases.

EDUCATION

BSc Electrical and Electronic Engineering | 2025
